

# Quick Start Guide

Basic CueThink information at your fingertips

## Accessing CueThink

CueThink is available through a web browser on all devices, including iPads, ChromeBooks, laptops and desktops. Students can seamlessly switch between devices.

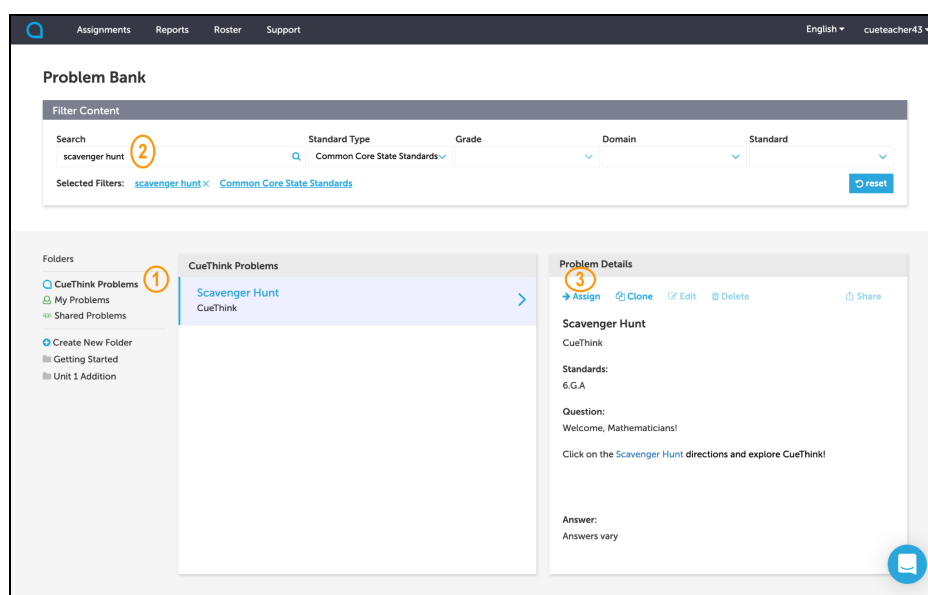

Use Google Chrome, Firefox or Safari 11+ to bookmark and access CueThink via [app.cuethink.com](http://app.cuethink.com) or the login button on [cuethink.com](http://cuethink.com). **Use sign in with Google option.**

## Setup Your Class

- Go to [Roster > Classes](#). Use the +New Class button to create your class(es.)
- There are 2 options to roster students. Watch these videos:
  - [Students register their own accounts](#): share [this poster](#) with students
  - [Import roster](#) from Google Classroom

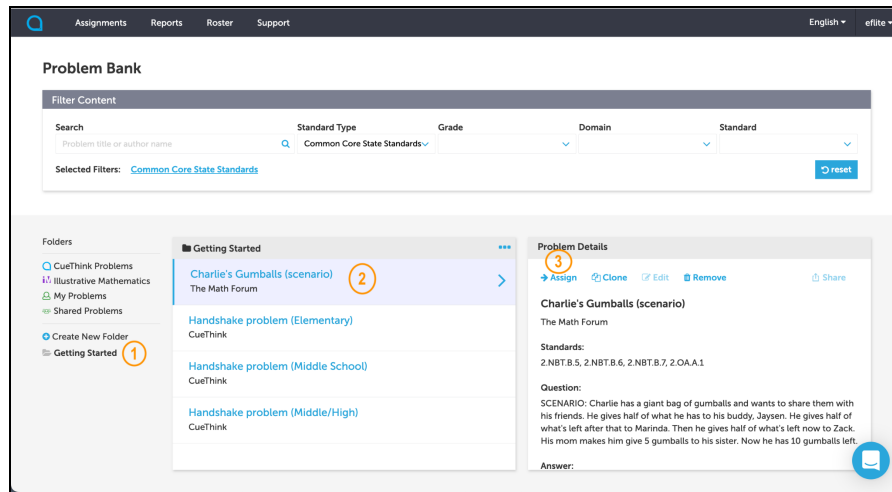

## Starter Assignments

- **Scavenger Hunt:** A fun way for students to explore CueThink.
- 1 Go to Assignments > Problem Bank page. Choose **CueThink Problems** folder.
  - 2 Type "**Scavenger Hunt**" in the Search bar.
  - 3 Click **Assign** in the right panel

- **Getting Started Folder:** Tasks with multiple entry points and opportunities for mathematical modeling.

- 1 Go to Assignments > Problem Bank page. Select the **Getting Started** folder.
- 2 Choose a problem.
- 3 Click **Assign** in the right panel.

## CueThink Lesson Plan

Use this [introductory lesson plan](#) to introduce each phase, scaffold student practice time, and facilitate student reflection. Then, make CueThink part of your routines!

**Tech Tip:** Students may need support with [microphone access](#) in the first CueThink session.

## Access In-App Support

Use the [in-app messaging feature](#) located at the bottom right corner of Educator Mode to contact the CueThink team at any time with your questions! This is the fastest way to contact us.

You can start a new conversation and look back at previous messages.
